The Commonwealth of Learning (COL) is proud of its strong country focus. While COL strives to achieve synergy in its programme across the whole Commonwealth, it also considers itself accountable for its work in each Member State. *COL in the Commonwealth* reviews COL’s work over the last two years (2009-2011) country by country.

At the beginning of the 2009-2012 triennium a Country Action Plan was developed to guide COL’s activities in each country and ensure that they were consistent with the national priorities of the government. These reports describe the implementation of these plans. Final versions of these reports will be presented to the 18th Conference of Commonwealth Education Ministers (18CCEM) at the end of the triennium in 2012.

Ministers were enthusiastic about the previous issue of *COL in the Commonwealth* that was submitted to 17CCEM in Kuala Lumpur in 2009. At the request of Ministers these reports cover all Member States of the Commonwealth, showing not only what COL has done in the developing countries but also how its work relates to the international development priorities of Australia, Canada, New Zealand and the United Kingdom. The reviews are grouped under four regions: Africa (and the Mediterranean), Asia, the Caribbean and the Pacific. The reports for each group of countries begin with a short account of the regional activities which COL has promoted in 2009-2011.

Member States also value COL’s Pan-Commonwealth work, which benefits from the unifying characteristics of the Commonwealth such as a common language, similar constitutional and legal frameworks, and a shared commitment to the values of peace, democracy, equality and good government. Some of the Pan-Commonwealth activities and facilities that underpin COL’s work in the regions and countries are listed in the next section.

The production of *COL in the Commonwealth 2009-2011* has been an intense collective effort. COL’s advanced knowledge management systems have enabled us to exploit fully the information contained in the numerous event reports prepared by staff as they work and travel. I express particular gratitude to Jasmine Lee, for diligently updating the country profiles that provided the raw material for these reviews, and to Karen Speirs, who brought this volume together in an impressively efficient and expeditious manner.

Commonwealth of Learning
PAN-COMMONWEALTH INITIATIVES

BACKGROUND

As a Commonwealth inter-governmental organisation, the Commonwealth of Learning (COL) operates in all 54 member states, with a particular emphasis on 47 developing countries across Africa, Asia, the Caribbean and the Pacific.

COL’s Three-Year Plan was developed after consulting widely in the Commonwealth. It focuses specifically on the expressed needs of Member States and the imperative of progressing the Millennium Development Goals and Education for All, within the context of its own mission and mandate.

COL’s vision of “Access to Learning is the Key to Development” encapsulates both strategy and outcome. For example, COL harnesses the potential of open and distance learning (ODL) to bring lifelong learning for farmers (L3F) in an effort to mitigate the challenge of poverty and food security (MDG 1). As more countries achieve Universal Primary Education (UPE), they seek to provide access to secondary education. Since existing institutions are unable to cater to this massive surge, COL initiated the Open Educational Resources for Open Schools project as a response (MDG 2). COL uses community media to promote mother and child health goals (MDGS 4 and 5) in countries such as India, Kenya and Malawi.

COL also focuses on four Education for All goals – access to primary education, gender equality, quality education, and learning and life skills for young people and adults – through teacher training, gender mainstreaming, quality assurance and skills development respectively.

The approach has been to work within the framework of the COL Logic Model 2009-12 but to also be flexible and responsive enough to cater to new and specific needs as they occur.

COL develops Country Action Plans for Member States based on discussions with country Focal Points and partners. These dynamic documents are updated regularly and incorporate requests from countries over the course of the triennium. They will be presented as Country Reports, which document COL’s work in each country, to the Commonwealth Education Ministers, when they meet in Mauritius in 2012.

A number of COL activities span the Commonwealth. This section outlines these pan-Commonwealth initiatives.

EDUCATION

“OER FOR OPEN SCHOOLS”

COL’s “OER for Open Schools” initiative involved working with partners at open schools in six countries (Botswana, Lesotho, Namibia, Seychelles, Trinidad & Tobago and Zambia) to create open educational resources (OER) for 20 secondary level courses. The OER will be freely available for download, adaptation
and use, resulting in a substantial contribution to open schooling globally. COL provided extensive training to “Master Teachers” in each country, helping them build their skills in developing OER in both print and eLearning versions. “OER for Open Schools” was funded in part by The William and Flora Hewlett Foundation.

COMMONWEALTH OPEN SCHOOL ASSOCIATION

COL supports the expansion of ODL to meet the growing need for primary and secondary education, as well as lifelong learning. As part of COL’s initiative to establish and strengthen open schools, COL assisted in the establishment of the Commonwealth Open School Association (COMOSA), which involves partners from every region of the Commonwealth who have signed the COMOSA constitution.

The COMOSA website was launched at the first Annual General Meeting in Delhi in November 2010, and COMOSA’s activities for the next three years were identified as Research, Gender and Vocational and Technical Education. A COMOSA workshop on “Research in Open Schooling” was held in Delhi, India in November 2010, and a Research Agenda with ten areas was adopted.

OPEN SCHOOLING

Representatives from more than 20 countries took part in a COL workshop on copyright and open educational resources (OER) in Delhi in November 2009.

The Quality Assurance Toolkit for Open Schools was launched during the Sixth Pan-Commonwealth Forum on Open Learning (PCF6) in Kochi, India in November 2010. The Toolkit will be used in all the countries affiliated with COMOSA to develop their institutional Quality Assurance frameworks. Copies of the Toolkits were made available to the delegates at PCF6.

CHILD-FRIENDLY SCHOOLS

The UNICEF-COL Child-Friendly Schools initiative is mainstreaming “child first” concepts, principles and models into the pre-service and in-service teacher education curricula in eight Commonwealth countries. COL is working with partner teacher training institutions to develop Child-Friendly Schools learning materials and to provide capacity building workshops.

BUILDING CAPACITY IN MULTIGRADE TEACHING

A Consultative Meeting, the first phase of the Capacity Building Programme on Multigrade Teaching for Teachers in Selected Commonwealth Countries (Belize, Maldives, Namibia, Samoa and Solomon Islands), was held in Honiara, Solomon Islands in June 2010. The capacity building initiative aims to strengthen the current work of the Commonwealth Secretariat and COL on multigrade teaching through the design and implementation of a programme to support teachers, using ODL strategies.

QUALITY ASSURANCE

COL provides leadership in quality in ODL. COL’s quality microsite (www.col.org/quality) provides a single convenient online access point to quality assurance resources in ODL. This includes access to COL’s Quality Assurance Toolkits for open schools, higher education and teacher education.

The COL Review and Improvement Model (COL RIM) provides higher education institutions with a “do-it-yourself” approach to institutional quality audits. COL developed COL RIM as a cost-effective approach that focuses on self-assessment and helps institutions improve internal quality assurance, planning and systematic institutional improvement. The COL RIM package, consisting of a conceptual framework and handbook, is freely available from COL.
COMMONWEALTH EXECUTIVE MBA/MPA

COL’s Commonwealth Executive Master of Business Administration and Master of Public Administration programme is designed for part-time study by busy working professionals, in response to the growing demands for post-graduate level education in business and public administration. The CEMBA/MPA programme is offered at partner institutions in Bangladesh, Ghana, Guyana, Jamaica, Malaysia, Nigeria, Pakistan, Papua New Guinea and Sri Lanka.

LEGISLATIVE DRAFTING PROGRAMME

COL’s Graduate Diploma in Legislative Drafting builds professional skills through ODL. The programme is currently offered by three partner institutions: the National Open University of Nigeria, the University of the South Pacific and Athabasca University in Canada.

VIRTUAL UNIVERSITY FOR SMALL STATES OF THE COMMONWEALTH (VUSSC)

VUSSC is a network of 32 small states of the Commonwealth dedicated to expanding access to tertiary education. VUSSC hosted international training and materials development workshops that develop capacity and initiate the development of new courses that are available as OER. Educators and learners can freely access, adapt and re-use VUSSC learning materials.

Originally led by COL, VUSSC is now governed by a Management Committee with representation from all regions of the Commonwealth.

VUSSC members collaborated to develop the Transnational Qualifications Framework (TQF), a system of accreditation for VUSSC courses that facilitates the movement of courses and learners among states. Through the TQF, VUSSC aims to ensure all open educational resources (OER) created for VUSSSC can be adapted into recognised courses that students can take for credit through educational institutions in small states. The TQF was formally launched in Namibia in May 2010.

VUSSC’s learning portal, launched in 2011, includes an online Learning Management System for learners and educators to access and contribute to VUSSC courses, as well as free online materials and tips for learning online.

LIVELIHOODS AND HEALTH

LIFELONG LEARNING FOR FARMERS

COL’s Lifelong Learning for Farmers programme helps rural communities engage in appropriate technology-based open and distance education to improve their livelihoods. While governments face challenges in funding adequate agricultural extension, globalisation is creating increasing competition for poor rural farmers.

Lifelong Learning for Farmers addresses these issues by enabling vulnerable rural women and their families to embrace learning. The programme brings together four key partners: farmers, learning institutions, mobile phone and ICT companies and banks. As farmers gain relevant knowledge from learning institutions via mobile phones and ICT kiosks, banks provide loans to them with greater assurance.

Introduced in southern India in 2004, Lifelong Learning for Farmers has been adapted and introduced in Jamaica, Kenya, Mauritius, Sri Lanka and Uganda.
FLEXIBLE SKILLS DEVELOPMENT

COL is helping technical and vocational education and training (TVET) institutions in Africa expand flexible and blended delivery approaches. By increasing access to quality skills development for young people and adults, COL’s Flexible Skills Development (FSD) programme aims to alleviate poverty. This programme actively targets course development for people working in the informal economy. Through online training, workshops and an online Community Learning Network, COL is helping 11 key TVET institutions in six countries in strengthening capacity to develop new curriculum content to realise the benefits of educational media and technology.

COL is also working with TVET training institutions in the Pacific to develop training courses in basic trades to help meet the skills needs of small island states. COL has worked with partners in the region to develop courses in Small Business, Small Engine Maintenance, Tourism as a Business, Working with Timber and Working with Concrete, as well as Literacy for Basic Trades, which assists students with varying levels of literacy.

HEALTHY COMMUNITIES

COL’s Healthy Communities initiative brings together groups working at the local level – media, health agencies, NGOs and community groups – to address health and development challenges through participatory learning programmes. While programmes vary according to local needs, COL’s approach remains consistent:

- Bring together local partners: most often community groups identify health information needs, health agencies provide content and community radio stations broadcast the learning programmes.
- Build capacity: this usually involves radio production skills, which expands the pool of community members who are actively engaged in the programme.
- Provide ongoing support: as programmes mature and partners change, COL will help community learning programmes adjust and continue to grow.

Recent initiatives span the Commonwealth, responding to local health needs.

“TAKING OER BEYOND THE OER COMMUNITY”

“Taking OER beyond the OER Community: Policy and Capacity” is a COL/UNESCO joint initiative that promoted the wider use of OER by expanding understanding of OER by educational decision makers and quality assurance experts. The programme involved capacity building workshops in all regions of the Commonwealth, online discussion forums and new OER publications.

COMMONWEALTH COMPUTER NAVIGATORS CERTIFICATE

The Commonwealth Computer Navigators Certificate (CCNC) is an information and communication technology (ICT) literacy course based on the International Computer Driver’s Licence (ICDL) using Open Office on either a Linux or Windows Platform. The high quality training materials are available from COL free of cost.

GENDER

Gender equality is a cross-cutting theme that underpins in all COL’s initiatives. The advancement of gender equality and women’s empowerment are central to COL’s agenda of learning for development.
COL looks beyond the arithmetical target of gender parity (equal numbers of males and females in school) to the more challenging goal of gender equality (equality of outcomes). COL’s gender work includes providing gender resources, capacity building in ICT for women and gender research.

E-LEARNING FOR INTERNATIONAL ORGANISATIONS

COL customises eLearning solutions to meet the capacity enhancement needs of international organisations around the world. COL develops and delivers effective training solutions in partnership with the UN and other international agencies. This contract work is performed on a fee-for-service basis with full cost recovery. Course subject matter ranges from effective communication and report writing to operational data management and debt management.

PAN-COMMONWEALTH FORUM ON OPEN LEARNING

COL’s biennial Pan-Commonwealth Forum on Open Learning (PCF) is one of the world’s leading conferences on learning and global development. It brings together people representing educational institutions, governments and development agencies to explore issues related to ODL and development. More than 600 delegates from 70 countries attended PCF6 in Kerala, India in 2010. COL’s Excellence in Distance Education Awards, honouring individual and institutions contributions to ODL, are presented at PCF.

PAN-COMMONWEALTH PARTNERSHIPS

COL’s work is supported by networks of advisors across the Commonwealth:

- **Focal Points**: individuals nominated by the Minister of Education in each country to act as COL’s primary contact.

- **Honorary Advisors**: eminent ODL professionals from across the Commonwealth are a valuable resource for consultations about COL’s future plans and for Member States seeking advice on ODL.

- **UNESCO-COL Chairs**: distinguished serving academics who serve in an honorary capacity, complementing the political and administrative role of the Focal Points and Honorary Advisors.

REGIONAL ACTIVITIES

BACKGROUND

As a region comprised largely of small island states, the Commonwealth Pacific faces distinct challenges. Most countries have limited resources to support a large education and training infrastructure. The University of the South Pacific (USP) reaches a wide range of learners through open and distance learning (ODL), but there remains a pressing need to increase economic productivity and literacy levels throughout the Pacific region. COL is working with partners in the region to apply its expertise in ODL and information and communication technology (ICT) to help address education and development needs in the Pacific.

Virtual University for Small States of the Commonwealth (VUSSC)

Eight Commonwealth Pacific nations are members of VUSSC, a collaborative network of 32 small states committed to the development of free content resources for use in an educational context. Samoa has hosted two VUSSC international training and materials development workshops in 2007 and 2009. The 2009 workshop on Transport and Logistics focusing on Stevedoring was held in Apia, Samoa from 23 November-11 December 2009. The workshop helped to build the capacity of workshop participants in ICT and content development using ODL as well as developing content for the transport and logistics-stevedoring course. Numerous educators from the Pacific have attended VUSSC training workshops.

Open Schooling

COL commissioned a desk report on Open Schooling as a Strategy for Second-chance Education in the Pacific. The desk study report, “Open Schooling as a Strategy for Second-Chance Education in the Pacific”, explores the nature and scale of school dropouts and out-of-school youth and adults in Pacific Island countries. It provides 11 individual country reports along with a combined overview of education issues and patterns. The desk report was submitted to the National Departments, Ministries of Education and Education Committees of the participating countries. This is a three-phase regional Pacific project (2010-2013) on the current reality of education in the Pacific.

Teacher Education

A Consultative Meeting, the first phase of the Capacity Building Programme on Multigrade Teaching for Teachers in Selected Commonwealth Countries (Belize, Maldives, Namibia, Samoa and Solomon Islands), was held in Solomon Islands from 28-30 June 2010. The capacity building initiative aims to strengthen the current work of the Commonwealth Secretariat and COL on multigrade teaching through the design and implementation of a programme to support teachers, using ODL strategies.
Higher Education

USP, Vanuatu has signed a licence agreement with COL to offer the post graduate programme in Legislative Drafting to students in the Pacific Islands of the Commonwealth. COL has granted USP an extension of the licence agreement for the use of the materials until February 2013. In 2009, COL supported the programme by providing 12 scholarships.

Skills Development

COL facilitated the establishment of the Pacific Association for Technical and Vocational Education and Training (PATVET) and the creation of Basic Skills courses that are being shared throughout the Pacific islands.

COL held a material development workshop for vocational literacy in Samoa in June-July 2010. The participants were trained in writing for ODL and contributed to the development of a Student Workbook and Tutor Guide to be used in conjunction with the Basic Trades for Small Island Nations courses in Working with Concrete and Working with Timber.

COL facilitated a course planning workshop to assist countries in planning the pilot delivery of the vocational literacy materials in Port Vila, Vanuatu from 3-5 October 2010. The workshop was hosted by Vanuatu National Training Council.

Following the implementation of the pilot in four countries, COL organised the Pacific Regional Vocational Literacy and Numeracy Course Evaluation Workshop in Wellington, New Zealand from 13-17 June. The participants evaluated pilot delivery of the Literacy and Numeracy for Basic Trades course, collaborated to review and revise the literacy and numeracy modules, and considered next steps and action plans.

Healthy Communities

COL and the World Association of Community Radio Broadcasters (AMARC) conducted a workshop for community radio and education and development organisations on the sidelines of the AMARC Asia-Pacific Conference in February 2010 in Bangalore, India. Participants shared, discussed and applied innovative approaches to developing educational content and programmes. They also learned new awareness of community radio in Asia-Pacific and its potential contributions to local development, education, governance, knowledge and skills in using community media as part of disaster management, climate change mitigation, food security and advocacy for gender equity.

The Bangalore Declaration was created at the conference and passed by the AMARC Asia-Pacific general assembly. It is a collective statement of participants’ beliefs and commitments, including the use of community radio as a tool for non-formal education and food security.

REGIONAL PRESENCE

COL maintains strong relationships with many stakeholders in the Pacific, including member governments, partner institutions, donors and individuals. COL’s Honorary Advisors, a network of eminent ODL professionals, includes four representatives from the Pacific. The region is also represented by a network of individuals, selected by member Governments, who liaise directly with COL as Focal Points. COL creates specific country action plans and country reports to ensure the region’s needs are addressed.
REGIONAL FOCAL POINTS MEETING

The COL Regional Focal Points Meeting (Pacific) will be held from 1-3 November in Auckland, New Zealand. The meeting is held once every three years. Focal Points share information about the status of ODL in their countries, receive the mid-term report of what COL has done in each country, and identify education and training priorities that COL can support in the next Three-Year Plan, 2012-2015.

REGIONAL BROCHURES

COL has regional brochures that summarise its activities in each of the four regions of the Commonwealth. These can be found on COL’s website at www.col.org/regional.

New Zealand hosted the Third Pan-Commonwealth Forum on Open Learning (PCF) in Dunedin in 2004.

Dr. Caroline Seelig of The Open Polytechnic of New Zealand (TOPNZ) and Jenny Williams are Honorary COL Advisors.

The New Zealand Aid Programme is the New Zealand government’s international aid and development agency.

SUMMARY

In 2009-2012, COL’s work is aligned with the goals of the New Zealand Aid Programme in its area of focus, the Pacific. New Zealand’s aid priorities are reflected in COL’s two programme sectors, Education and Livelihoods & Health.

New Zealand continues to be a valued partner for COL in the Pacific region. New Zealand has hosted several regional meetings, and New Zealand consultants are contributing expertise to COL projects in the region.

NEW ZEALAND AID PROGRAMME MANDATE AND PRIORITIES

The New Zealand Aid Programme’s mandate is to “support sustainable development in developing countries in order to reduce poverty and to contribute to a more secure, equitable and prosperous world”.

New Zealand's aid efforts concentrate on activities that contribute to poverty reduction through sustainable economic development; create safe, secure and inclusive societies; fulfil basic needs; and focus on sustainability.
New Zealand's development assistance aims to help countries achieve and maintain the internationally agreed poverty reduction objectives set out in the Millennium Development Goals (MDGs). COL shares this focus and contributes to the achievement of the MDGs in most of its programme areas.

_Nga Hoe Tuputupu-mai-tawhiti_- the paddles that bring growth from afar - is the Maori name for the New Zealand Aid Programme. It is an approach shared by COL in its focus on Learning for Development.

**COUNTRIES AND REGIONS OF FOCUS**

The Pacific is the New Zealand Aid Programme’s core geographic focus. More than half of New Zealand’s total aid goes to this region. The New Zealand Aid Programme also supports development in Africa, Asia and Latin America. Global development efforts are supported through funding from the New Zealand Aid Programme to international agencies.

New Zealand provides assistance to all Pacific Commonwealth countries, as does COL. Its largest bilateral programmes in the Pacific are in Papua New Guinea, Solomon Islands and Vanuatu – countries where COL is also active. Increasingly, funding is allocated towards activities focused on economic growth. New Zealand’s aid also focuses on outcomes central to development in the Pacific including fostering sustainable economic growth and improved livelihoods, investing in people through health and education, strengthening governance, helping communities be better prepared for natural disasters and creating healthy communities.

COL has contributed to development efforts in all Pacific Commonwealth nations in this triennium through the Virtual University for Small States of the Commonwealth (VUSSC), as well as initiatives in the areas of healthy communities, teacher education, open schooling and learning for farming.

New Zealand was an active participant in the Sixth Pan-Commonwealth Form on Open Learning (PCF6) in Kochi, India in November 2010. Several delegates from New Zealand attended PCF6. The Hon. Steven Maharey of Massey University was a keynote speaker at the Forum. He delivered the paper on Access and Success: Distance Learning at Massey University and its Impact on New Zealand Society”. ASSISTANCE AND EXPERTISE

Since 2009, COL has hired nine consultants from New Zealand to provide expertise and resources to projects in the Pacific region and across the Commonwealth.

New Zealand is playing an important leadership role with open educational resources (OER) through the OER Foundation, headquartered at Otago Polytechnic in Dunedin, New Zealand. This non-profit organisation is working to help education institutions harness the potential of OER – learning materials that educators can freely modify, adapt and reuse. The founding Director of the OER Foundation, Dr. Wayne Mackintosh, is a former COL Education Specialist. Dr. Mackintosh launched the Learning4Content global wiki skills initiative during his time at COL. COL continues to support the WikiEducator, now located at the OER Foundation, Otago Polytechnic.

COL signed a Memorandum of Understanding with TOPNZ in July 2010 to identify possible avenues for collaboration and to establish the basis of collaboration where it is mutually beneficial. Both organisations agree to jointly explore and coordinate activities of mutual interest that will promote the development and application of conventional as well as non-conventional methods of learning and training, particularly through the use of open, distance, flexible and technology-mediated learning leading.

An international roundtable to showcase COL’s Quality Assurance toolkits was held in Colombo in August 2010, facilitated by Caroline Donovan of the New Zealand Qualifications Authority. About 30 representatives from Sri Lanka, Nigeria, Mauritius, Bangladesh, Australia and other non-Commonwealth countries, attended the roundtable.

COL commissioned TOPNZ to conduct a study on the digital literacy of health workers in the Pacific. The report was submitted in July 2011.

The participants evaluated pilot delivery of the Literacy and Numeracy for Basic Trades course, collaborated to review and revise the literacy and numeracy modules and considered next steps and action plans.

LOOKING FORWARD

In 2012-2015, COL anticipates further strengthening its partnership with New Zealand and collaborating to achieve key education and development goals in the Pacific region. New Zealand’s support for COL through sponsorship and expertise is integral to COL’s success in the region. COL will continue to explore opportunities to support the New Zealand Aid Programme’s key priority areas.
