

A Bibliography of ICT Applications in Education in Africa

Introduction

This bibliography is the initial phase of a survey initiated by the Information for Development Program (infoDev), located at the World Bank, being carried out in partnership with the Commonwealth of Learning (COL). While the primary purpose of the bibliography is to inform the process of developing reports that will focus on ICT developments in each African country, it is also being shared openly in the hope that it will be useful to others, and, more importantly, that others will add items and offer suggestions for improvement.

The items in this collection have been selected on the basis that they provide data about ICT in education policy development and implementation processes; current projects; constraints in implementing ICT-enabled education; available infrastructure, teacher professional development and training, and digital education content development. The bibliography is therefore a potpourri of studies, evaluation reports, government policy documents, news items, and reports from other surveys that have been written since 2000. We will be adding to the work as the country reports proceed. All URLs were checked between December 5 and 19 2006.

This is the second version of the bibliography, however it remains a “work in progress!” We hope you will join in the process.

Glen Farrell
Shafika Isaacs

Survey Co-Leaders

Tertiary Education

1. Liverpool, Saweda. 2002. “ICT in Education in Gambia: An Overview of Gambian Tertiary Education”. Widernet.org.
<http://www.widernet.org/projects/gambia/reportgambia.htm>. *As part of a needs assessment, conducted for the WiderNet Project, on the use of ICT in Gambia's tertiary institutions of learning, the author worked with the Gambia College School of Public Health.*
2. Jallow, Abdou K. 2002. “Report On ICT Use In Gambia College”.
<http://www.widernet.org/projects/gambia/IctInGambiaCollegeReprot.htm>. *Contains recommendations for establishing ICT infrastructure throughout the College.*
3. Ng’ethe, Njuguna, N’dri Assié-Lumumba, George Subotzky and Esi Sutherland- Addy. 2003. “Higher Education Innovations in Sub-Saharan Africa: With Specific Reference to Universities”. ADEA Working Group on Higher Education for the Partnership on

- Education. http://www.aau.org/wghe/publications/wghe_innovations_ref_univ.pdf. *The survey sought to identify and document higher education innovations currently underway in Sub-Saharan Africa.*
4. “Strategic Development Plan for Information and Communications Technology (ICT) 2003 –2005”. Association for the Development of Education in Africa. http://www.aau.org/wghe/publications/wghe_ict_strategic_plan_zimbabwe.pdf. *This work, for the National University of Science and Technology, Bulawayo, Zimbabwe, was encouraged by the Working Group on Higher Education of the Association for the Development of Education in Africa.*
 5. “National ICT Strategy for Education and Training”. 2006. Kenya Ministry of Education. http://www.education.go.ke/ICTStrategy_Team.htm. *The Strategy outlines outcomes, implementation, management, cost analysis and monitoring, and the evaluation processes.*
 6. Murray, Lize. “AVU Gap Analysis Report: August 2005”. Prepared for the Hewlett Foundation by the AVU OdeL Initiative. <http://www.avu.org/acep.asp>. *The Gap Analysis Report describes the capacities of all potential partners in the Consortium of universities.*
 7. “AVU Capacity Enhancement Program (ACEP) Phase I”. 2005. African Virtual University. <http://www.avu.org/acep.asp>. *This is a comprehensive approach to offering capacity enhancement opportunities to the AVU’s Partner Institutions.*
 8. “AAU Newsletter”. September-November 2005. 11(3). <http://www.aau.org/newsletters/Vol11No3.pdf>. *This issue has articles on: the Cameroon interuniversity network, Kenya’s education network that provides interconnectivity to all institutions of higher learning; the UbuntuNet Alliance for bandwidth consistency in higher learning institutions; the ICT situation at the Universite Cheikh Anta Diop de Dakar, Senegal; and the Forum, a national network in Nigerian Higher Education Institutions.*
 9. Twinomugisha, A., J. Magochi and S. Aluoch. October 2000. “Bandwidth Consolidation and Management for Universities”. The Partnership for Higher Education in Africa. <http://www.foundation-partnership.org/pubs/avu/index.php>. *A report prepared by the African Virtual University for the Partnership.*
 10. Zaparovanny, Y. 2004. “Information and Communication Technologies Usage in Higher Education in Sub-Saharan Africa”. UNESCO Institute for Information Technologies in Education (IITE). <http://www.iite-unesco.org/>. *This book contains 22 articles, nine of which are “state of the art” country studies. The largest article is the Pan African Study of “E-Campus” that gives perspectives of several higher education institutions and desk-based research on six other countries.*
 11. “Kampala varsity in e-library bid “. October 2006. Uganda: East African Business Week. http://www.busiweek.com/index.php?option=com_content&task=view&id=2174&Itemid=39. *Kampala International University is to launch a digital library to support distance learning programmes.*

12. “VSAT Project for Pan African Countries by Indian Government “. August 2005. Ghana: Ministry of Communications.
<http://www.moc.gov.gh/modules.php?op=modload&name=News&file=article&sid=24&mode=thread&order=0&thold=0>. *The Minister of Communications has signed a Memorandum of Understanding with the Telecommunications Consultants India LTD to establish a VSAT based Tele-Medicine and Tele-Education Infrastructure for African Countries.*
13. “Virtual University to Become a Reality in August 2007 “. September 6, 2006. Commonwealth News and Information Service. Issue 301.
http://www.thecommonwealth.org/news/34581/153894/virtual_university_to_become_a_reality_in_august_2.htm. *The Commonwealth of Learning’s Virtual University for Small States of the Commonwealth (VUSSC) initiative is set to become a reality in August 2007 with the launch of two of its programmes.*
14. Juma, M. N. and S. D’Antoni, eds. “The Virtual University: Models and messages, Lessons from Case Studies”. 2006. UNESCO (IIEP).
http://www.unesco.org/iiep/virtualuniversity/media/document/Ch10_AVU_Juma.pdf. *The report, based on the experience of Kenyatta University, as part of the AVU, highlights the challenges faced by many African institutions as well as experiences gained in using technology to address some of them.*
15. Sagna, O. and S. D’Antoni, eds. 2006. “The Virtual University Models and messages”. UNESCO (IIEP).
http://www.unesco.org/iiep/virtualuniversity/media/document/Ch5_CNFD_Sagna.pdf. *The Campus numérique francophone de Dakar, Senegal, inaugurated in 2000, functions essentially as a well equipped resource centre, promoting and supporting distance and ICT-enabled education through the production of multimedia content, the promotion of distance education courses and CD-ROMs, an incubator for innovative firms, the development of digital literacy in students and teachers, and access to online information.*
16. Steiner, R., Nyaska, T., Jensen, M., and Karanja, G. “African Tertiary Institution Connectivity Survey (ATICS)”. World Bank Institute.
<http://www.dgroups.org/groups/cgiar/InternetAfrica/docs/ATICS2004Report.pdf?ois=no>. *This is a survey of Internet connectivity needs and policy in 83 Higher Education and research institutions in 40 countries that are associated with the African Virtual University (AVU).*
17. “Work on UNESCO’s ICT Competency Standards for Teachers enters final phase”. October 2006. UNESCO Daily News Service. http://portal.unesco.org/ci/en/ev.php-URL_ID=23023&URL_DO=DO_TOPIC&URL_SECTION=201.html. *An international standard for integrating ICTs in teaching.*
18. “Towards a Strategy on Developing African Teacher Capabilities in the Use of Information and Communication Technology”. October 2004. SchoolNet Africa.
http://www.schoolnet africa.net/fileadmin/resources/Towards_a_Strategy_on_Developing_African_Teacher_Capabilit.01.pdf. *A research summary of teacher training in ICT in Africa at pre and in-service levels. .*

19. Jokivirta, L. April 2006. "Foreign Higher Education Activity in Francophone Africa".. World Education News and Reviews. <http://www.wes.org/ewenr/06apr/feature.htm>. *A description of the most recent online foreign initiatives in Francophone Africa..*
20. "African Virtual University". 2005. Nairobi, Kenya: African Virtual University. <http://www.avu.org/about.asp>. *The objective of the AVU is to build capacity and support economic development by leveraging the power of modern telecommunications technology to provide world-class quality education and training programs to students and professionals in Africa. The Open, Distance and eLearning (Odel) initiative seeks to enhance the capacity of AVU's partner institutions to develop, deliver, and manage their own OdeL programs.*
21. "Makerere to set up an ICT centre in Africa". August 14, 2006. i4d. <http://i4donline.net/news/news-details.asp?catid=13&newsid=5264>. *The Makerere University Faculty of Computing and Information Technology has won an Africa Union bid to set up an ICT institution to offer ICT training for 13 countries.*
22. "Teacher Education in Sub-Saharan Africa (TESSA)". November 2005. Open University. http://www.open.ac.uk/education-and-languages/about_the_faculty/case_studies/teacher-education.php. *TESSA will provide online training that educators can download and print or burn on CDs for use in schools across Africa.*
23. Edukugho, Emmanuel. October 5, 2006. "Teachers must pass ICT test —TRCN". Vanguard Media Ltd. <http://www.vanguardngr.com/articles/2002/features/education/edu105102006.html>. *The acquisition of basic ICT skills and capabilities is now part of the National Minimum Standards for Teacher Education and Practice in Nigeria.*
24. Ouma, Ayoo P. October 29, 2003. "A National Distance Education (DE) Solution for Uganda: Innovative Application of Digital ICTs to Overcome the Barriers of the Existing Digital Divide". Paper presented at the IITE Specialized Training on ICTs for Distance e-Learning for Countries in Sub-Saharan Africa conference at the University of South Africa. http://www.iucea.org/publications/DE_Solution_%20Uganda.doc. *A comprehensive analysis of the Ugandan higher education system in terms of the opportunities for ICT applications and the constraints that need to be addressed.*
25. "The AVU Teacher Education Project". <http://www.avu.org/documents/Fact-Sheet.pdf>. *A description of how the African Virtual University has implemented a Teacher Education Program, funded by the African Development Bank, in ten countries.*
26. "Somalia: Online Distance Learning Initiative fact sheet". August 2006. UNDP and World Bank. <http://www.reliefweb.int/library/documents/2006/undp-som-26aug.pdf>. *The ODL Learning Initiative is using Very Small Aperture Terminals to access internet connectivity for knowledge resources and interactive learning in selected Somali universities/ tertiary institutions.*
27. Steiner, Roy, Nyasha Tirivayi, Mike Jensen and Karanja Gakio. 2004. "The African Tertiary Institutions Connectivity Survey Report". Commissioned by the World Bank Institute.

<http://www.dgroups.org/groups/cgiar/InternetAfrica/docs/ATICS2004Report.pdf>. *The report is based on a survey of 83 institutions in 40 countries to discover their needs and willingness to participate in a 'bandwidth purchasing club'.*

28. "Internet in Higher Education, Research, Science, and Technology Development in Sub-Saharan Africa". 2006. Dgroups.
http://www.dgroups.org/groups/cgiar/InternetAfrica/index.cfm?op=dsp_resource_details&resource_id=33068&cat_id=17316. *Summary of three weeks of online discussion on the Internet in higher education, science and technology development in Sub-Saharan Africa, with about 280 participants, the majority from differing African countries.*
29. Josué, Tetang T. "Some facts about Cameroon". September 2006. Development through Dialogue, an online discussion forum.
http://www.dgroups.org/groups/cgiar/InternetAfrica/index.cfm?op=dsp_showmsg&listname=InternetAfrica&msgid=444617&cat_id=17314. *Contribution made to Internet in Higher Education, Research, Science, and Technology Development in Sub-Saharan Africa website.*
30. "Work on UNESCO's ICT Competency Standards for Teachers enters final phase". October 10, 2006. Paris: UNESCO.ORG. http://portal.unesco.org/ci/en/ev.php-URL_ID=23023&URL_DO=DO_TOPIC&URL_SECTION=201.html. *A UNESCO initiative, designed to develop a common core syllabus defining various ICT competency skills for teachers that professional development providers can use to prepare learning materials, is nearing completion.*
31. Aguti, Jessica N. and William J. Fraser. July 2006. "Integration of Information Communication Technologies (ICTs) in The Distance Education Bachelor of Education Programme, Makerere University, Uganda". Turkish Online Journal of Distance Education-TOJDE. ISSN 1302-6488. 7(3) Article 7.
<http://tojde.anadolu.edu.tr/tojde23/articles/article7.htm>. *The study examined what technologies the stakeholders of this programme have access to, what technologies they believe can be used for the programme and for what purpose, and, finally, what prerequisites should be put in place for this technology to work.*
32. Ayoo, Philip Ouma. October 2003. "A National Distance Education (DE) Solution for Uganda". The Inter-University Council for East Africa.
http://www.iucea.org/publications.php?publication_id=37. *The paper describes the institutions in Uganda, the constraints faced re ICT applications, and suggests strategies for overcoming them.*
33. "Continued Assistance to Connectivity for Educator Development (Connect-ED) Phase II, USAID/Uganda". International Education Systems. Project date: 2003-2005.
<http://ies.edc.org/ourwork/project.php?id=3448>. *A USAID funded project that set up computer centers and Internet points at Kyambogo University and eight Primary Teacher's Colleges throughout the country to provide computer literacy and materials development training for teachers.*
34. Coupe, Jeffrey et al. 2003. "Is Constructivism Universal: In Search of Meaningful Technology in Morocco and Namibia". This paper is reprinted with the permission of

- UNESCO/IIEP. It will appear as Chapter 8 in *Adapting Technology for School Improvement: A Global Perspective*, edited by D.W.Chapman and L. Mahlc. <http://www.eldis.org/cf/search/disp/DocDisplay.cfm?Doc=DOC7879&Resource=flict>. *The experience suggests that education technology programs can enhance the quality of professional training as well as strengthen education reforms by giving ownership to the involved teachers.*
35. Cisler, S. and K. Yocam. 2003. "Connect-ED Evaluation (Uganda)". EduAction. <http://www.eldis.org/static/DOC7844.htm>. *The overall task of this project was to integrate computers into the teaching methods of Primary Teacher College faculty and build capacity among staff by establishing computer-assisted teacher training laboratories and resource centres. The report outlines project results, impacts and recommendations for the future of Connect-ED.*
36. "Universite Virtuelle de Tunis (UVT)". March 2005. The Observatory on Borderless Higher Education: Key Issue. <http://www.obhe.ac.uk/cgi-bin/keyresource.pl?resid=29>. *The UVT was established in 2003 to provide open and distance education using multimedia technologies. Initially its mandate was to offer distance learning programmes in Tunisia but it is becoming an online higher education provider across the French-speaking regions of North Africa.*
37. "New Technologies; New Modes of Teaching; New Forms of access to Higher Education". www.open.ac.uk/deep/iau. *A report, by the Digital Education Enhancement Program (DEEP), of the collaborative project between Fort Hare University, South Africa and the Open University, UK. using ICTs effectively in teaching and learning.*

Primary & Secondary Education

1. Seifu, Semra. May 2006. "How soon is too soon? Introducing Technology in Primary School Classrooms". <http://topics.developmentgateway.org/elearning/rc/filedownload.do?itemId=1075152>. *A case study reviewing the challenges, rewards, and lessons learned from a two-year project of introducing the concept of technology to the rural least privileged schools of Rwanda..*
2. Odhiambo, Orlale. October 31, 2006. "Landlocked country may soon become top ICT hub in Africa". The Daily Nation. http://www.nationmedia.com/dailynation/nmgcontententry.asp?category_id=39&newsid=84493. *All public schools in Rwanda are expected to join the information super-highway by the end of next year.*
3. "Somali Interactive Radio Instruction Program (SIRIP)". International Education Systems. Project duration 2005 to 2008. <http://ies.edc.org/ourwork/project.php?id=3734>. *Building on the success of the previous Interactive Radio Instruction for Somalis, SIRIP has a series of Interactive Radio Instruction (IRI) programs for students in grades 1 to 6.*

4. Howie, Sarah J., Anton Muller, and Andrew Paterson. 2005. "Information and Communication Technologies in South African secondary schools". South Africa Human Sciences Research Council. http://www.hsrapress.ac.za/full_title_info.asp?id=1984. *This book is based on the results of research undertaken in the Second Information Technology in Education Study (SITES), an international cross-sectional survey evaluating the status of ICT in relation to instructional activities across 26 countries.*
5. Howie, Sarah J., Anton Muller and Andrew Paterson. 2005. "ICT development in schools, an evaluation of South Africa". Human Sciences Research Council (HSRC), South Africa / Nexus. <http://www.eldis.org/cf/search/disp/docdisplay.cfm?doc=DOC18476&resource=f1>. *This study evaluates the use of ICT in South African schools: current infrastructure, connectivity, curriculum, timetable allocations, and to a lesser extent classroom practice of ICT.*
6. Hesselmark, O. and J. Miller. 2002. "A Country ICT Study for Namibia". Swedish International Development Cooperation Agency (Sida). <http://www.eldis.org/cf/search/disp/docdisplay.cfm?doc=DOC17782&resource=1>. *This report covers the fifth in a series of country ICT surveys commissioned by Sida as part of its ongoing programme to support the use of ICT in developing countries.*
7. Leach, Jenny. June 2004. "ICTs for teacher training, Egypt and South Africa". SoulBeat Africa. <http://www.comminit.com/africa/strategicthinking/st2004/thinking-759.html>. *The results of research on the DEEP project shows that new digital technologies can have a significant role to play in transforming the opportunities for teacher education in developing countries.*
8. Chisholm, Linda, Rubby Dhunpath and Andrew Paterson. June 2004. "The use of ICTs in the curriculum in Botswana, Namibia and Seychelles". The Southern African Development Community Education Policy Support Initiative (SADC EPSI). <http://www.nied.edu.na/publications/other%20resources/ICTs%20FINAL%20REPORT.agg.8.6.2004.pdf>. *An overview of how each country has prioritised the implementation of ICTs in schools and developed related policy and curriculum.*
9. Kenya National ICT Strategy for Education and Training. 2006. Ministry of Education. <http://www.education.go.ke/ICTStrategy.htm>
10. South Africa Draft ICT in Education Implementation Plan. 2006. National Department of Education. *The document provides information on the status of access to and use of ICTs in SA schools and a proposed strategy to improve access, use and integration in learning and teaching.*
11. Conway, Kevin. 2003. "Tools for Educational Change". IDRC http://www.idrc.ca/en/ev-27301-201-1-DO_TOPIC.html. *Students and teachers in the Mozambique SchoolNet network are using the Internet as a learning tool.*
12. "Africa Drive Project". 2006. North West University. http://www.adp.org.za/images/03_adp/03_adp_ao.gif. *In partnership with industry and government, the ADP has developed the Advanced Certificate in Education – in a nutshell*

– a project that aims to produce highly competent secondary school educators, who in turn will have the ability to deliver quality learning to students.

13. Potter, Charles and Gordon Naidoo. May 2006. “Using Interactive Radio to Enhance Classroom Learning and Reach Schools, Classrooms, Teachers, and Learners”. *Distance Education*. 27 (1) : 63-86.
<http://www.ingentaconnect.com/content/routledg/cdie/2006/00000027/00000001/art00005>. *This article provides a case study of the development of the Open Learning Systems Education Trust’s “English in Action” programme in South Africa from 1993 to the end of 2004.*
14. South Africa Department of Education. 2002. “Audit of Selected Educational ICT Projects in South Africa”. [wef-ict-audit-final.doc](#) . *A bit dated, but a useful overview of key ICT4E projects in the schools sector in South Africa.*
15. “Aiti to Train Over 100 Tutors”. 2006. News Item on AllAfrica.
<http://allafrica.com/stories/printable/200609120015.html>. *Over 100 ICT tutors from 44 Senior Secondary Schools in Ghana are to be trained in Ruby programming language as part of the on-going collaboration between the Ghana-India Kofi Annan Centre of Excellence in ICT and the Finatrade Foundation.*
16. “Computers for Schools Kenya”. 2006. <http://www.cfsk.org>. *Computers for Schools Kenya has placed over 7,000 computers in more than 300 schools throughout the country.*
17. “CurriculumNet Pilot Project: Integration of Educational Technology into the Curriculum for Primary and Secondary Schools in Uganda”. 2004. IDRC. www.idrc.ca/en/ev-8040-201-1-DO_TOPIC.html. *A project in Uganda which specialises in the development of digitised curriculum-aligned content.*
18. “Engendering ICT Toolkit”. 2002. World Bank.
http://siteresources.worldbank.org/EXTICTTOOLKIT/Images/Engendering_ICT_Toolkit.gif. *A description of the toolkit and a case study of its application in Ugandan schools.*
19. “Imfundo Programme in Ghana”. 2002. Department for International Development (DfID). <http://www.dfid.gov.uk/research/imfundo-ghana.asp>. *An Imfundo project to assist Ghana’s Special Education Division with advice on best practice for ICT to meet special education needs in Africa.*
20. “Imfundo Research Programme”. 2002-2004. DfID.
<http://www.dfid.gov.uk/research/imfundo.asp>. *Imfundo was an initiative of DfID which considered ways in which ICT could be used to support education in Kenya, South Africa, Ghana and Ethiopia.*
21. “Global Teenager Project (GTP)”. 2005. iConnect Online. <http://www.icconnect-online.org/Articles/icconnectarticles.2005-05>. *An assessment report regarding implementation of this project in three Gambian schools.*
22. “Intel Gives Nigerian Students Access to e-Classroom in Nigeria”. 2006.
<http://allafrica.com/stories/200610050173.html>. *An article which provides details of a new Intel project in Nigeria.*

23. "State of the Art telecentre in Tunisia ". 2006. telecentre.org. www.telecentre.org/en-tc/node/15674. *The Centre National Informartique Pour l'Enfance and the Centre National Informartique Pour l'Handicappe in Tunisia has branches in the 24 Governorates of Tunis that allows children access to ICT training in multimedia and the Internet.*
24. "Knowledge Aid for Sierra Leone". 2004. <http://www.knowledgeaid.org/action.htm>. *Teachers, with the help of Knowledge Aid, are downloading teaching materials ("learning objects") and will gradually build an electronic "virtual library" of teaching resources – a progress report to 2004.*
25. "National Initiatives Concerning the ICT and Education/Training – Ghana". 2000. InFocus Programme on Skills, Knowledge and Employability, International Labour Office. http://www.logos-net.net/ilo/150_base/en/topic_n/t8_gha.htm. *An overview of initiatives in Ghana as of 2000.*
26. "Catch ITYoung". 2005. Ghana: OneVillage Foundation. www.onevillagefoundation.org/ovf/projects/ovf_ghana/catch_it_young.html. *CatchITYoung (CITY) is a platform designed to work with educators all over Ghana to develop Information Technology Clubs in primary and secondary schools.*
27. Leach, Jenny, Atef Ahmed, Shumi Makalima and Tom Power. 2005. DfID. "DEEP IMPACT: an investigation of the use of information and communication technologies for teacher education in the global south". <http://www.open.ac.uk/deep/Public/web/publications/core.html>. *A report of a survey conducted in 12 primary schools in Egypt and South Africa involving learners and teachers and their use of a range of technologies. Provides some insights into issues related to ICT integration into teaching and learning at the primary school level in both countries.*
28. James, Tina, Olof Hesselmark and G. Sibiya. 2002. "Final Evaluation of the Computer Education Trust Swaziland". DfID. <http://imfundo.digitalbrain.com/imfundo/web/plan/cet/>. *An evaluation report produced by DFID on the Schoolnet organization in Swaziland. Useful for the constraints experienced ... as well as what works.*
29. Aduwa-Ogiegbaen, S.E. and E.O.S. Iyamu. 2005. "Using Information and Communication Technology in Secondary Schools in Nigeria: Problems and Prospects". Educational Technology & Society. 8 (1): 104-112. http://www.ifets.info/journals/8_1/13.pdf. *This paper examines the major obstacles militating against the use of ICT in secondary education in Nigeria.*
30. "Education". 2005. iConnect OnLine. <http://www.icconnect-online.org/theme/education>. *Four iConnect Africa correspondents examine ICT and education issues with case studies from Burkina Faso, Ghana, Mali, Tanzania, Uganda and Zambia.*
31. "Libyan pupils to have laptops". 2006. BBC News: International version. <http://news.bbc.co.uk/2/hi/africa/6040536.stm>. *The government of Libya is reported to*

have agreed to provide each of its 1.2million school children with a cheap durable laptop computer by June 2008.

32. “Going Forward in Ghana”. 2006. Global e-Schools and Communities Initiative(GeSCI). www.gesci.org/gesci/publisher/index.jsp?aID=229&nID=111&pID=107. *GeSCI has signed a MoU with the government of Ghana to expand the deployment of ICTs in schools in Ghana and to promote the effective use of these ICTs to achieve Ghana’s educational and community development objectives.*
33. Commonwealth of Learning and SchoolNet Africa. 2005. “African SchoolNet Toolkit”. Vancouver, Canada: Commonwealth of Learning. www.col.org/colweb//site/pid/3155. *The African SchoolNet Toolkit is designed to support education policy-makers and practitioners in the use of information and communications technologies.*
34. “Microsoft Partners in Learning”. 2005. SchoolNet: South Africa. www.school.za/research/index.htm. *A report of the successes and challenges of the Microsoft PIL program in South Africa during 2004-2005.*
35. Addo, H, N. Butcher and S. Isaacs. 2002. “SchoolNets in Africa. A Baseline Scan”. Johannesburg, South Africa: SchoolNet Africa & IDRC. http://www.schoolnet africa.net/fileadmin/resources/SchoolNet_in_Africa_a_baseline_scan.pdf. *An overview of the projects, programs, donor funding and partners of 16 schoolnet organizations in Africa belonging to the SchoolNet Africa network.*
36. “Mkusanyiko on School Networking. SchoolNet Africa”. 2004. SchoolNet Africa. http://www.schoolnet africa.net/fileadmin/resources/Mkusanyiko_on_School_Networking_01.pdf. *A compendium of SchoolNet and related projects in operation throughout Africa during 2003-2004.*
37. Cossa, G and J. Cronje. 2004. “Computers for Africa: Lessons learned from introducing computers into schools in Mozambique”. International Journal of Learning Technology, 1(1): 84-99. www.schoolnet africa.net/fileadmin/resources/Computers_for_Africa.pdf. *An analytical academic journal article which assesses the Mozambican experience with adoption of ICTs in schools.*
38. Gadio, C.M. 2001. “Exploring the gender impacts of World Links in some selected African countries: a qualitative approach”. Washington, DC: World Links. <http://www.mulonga.net/discus/messages/26/387.html?1019926542>. *A summary of the findings of an independent study conducted in four African countries.*
39. Fouldes, S. 2002. “Internet-based Teacher Development – Virtual Communities of Practice, School of Education”. Johannesburg, South Africa: University of Witwatersrand. www.school.za/edn/research.htm. *This report is based on an analysis of the Educator Development Network model of teacher development by SchoolNet South Africa.*
40. Isaacs, S. 2005b. “Against All Odds”. Critical Reflections on SchoolNet Africa. in *ICTs For Education*. New York, New York: United Nations ICT Task Force, New York. *An article on the challenges and opportunities faced by SchoolNet Africa since its inception in 2001.*

41. Naidoo, Vis and Heba Ramzy, eds. 2004. "Emerging Trends in the Development of School Networking Initiatives". Vancouver, Canada: Commonwealth of Learning. www.col.org/colweb/site/pid/3330. *An overview of the key challenges and issues facing African SchoolNet organizations with references to case studies and examples of good practice.*
42. Isaacs, S. "Empowering Women in the Information Society: Towards a More Concerted Global and Local Effort." In *Maitland +20 Fixing the Missing Link*, edited by Gerald Milward-Olivier. 2005. United Kingdom: The Anima Centre. Available from www.communicationsresearch.net/object/news/4/doc/Maitland20.pdf.
43. Isaacs, S. and V. Naidoo. 2003. "A Schoolnet Value Chain for Africa – An integrated model enhancing education through the use of ICTs". South Africa: South African Institute for Distance Education. 9 (3). http://www2.unescobkk.org/education/ict/v2_2/detail.asp?id=16308
44. Isaacs, S. 2002. "ICTs in African Schools: A Multi-Media Approach for Enhancing Learning and Teaching". TechKnowLogia.org. January - March: 32-34. www.schoolnet africa.net/fileadmin/resources/techknowlogia2002africa.pdf.
45. James, Tina, ed. 2004. "Information and Communication Technologies for Development in Africa, Volume 3". IDRC and CODESRIA. http://www.idrc.org.sg/ar/ev-80608-201-1-DO_TOPIC.html. *This book provides an evaluation of school networking projects supported by IDRC in a number of African countries.*
46. "Audit of Major Educational ICT Projects in South Africa: World Economic Forum Global Digital Divide Initiative". 2002. SchoolNet South Africa. *This audit provides an overview of 34 different projects involved with ICTs in education in South Africa.*
47. Butcher, Neil and Associates. September 2003. "Intel Teach to the Future Evaluation". http://www.intel.com/cd/corporate/education/emea/eng/za/elem_sec/teach/programme/results/index.htm. *Evaluation report of the first year of Intel Teach to the Future program in South Africa.*
48. "World Links: Youth Impact Assessment". June 2006. Washington, DC: World Bank. www.world-links.org/images/stories/Documents/global%20report.pdf. *This study assessed the World Links Program in 10 countries focusing on youth in and out of school using the criteria of enhanced learning, changes in attitude and growth in skills to measure effectiveness.*
49. "Online Access and Connectivity of Primary School Teachers in Sub-Saharan Africa". July 2005. Braamfontein, South Africa: SAIDE. www.tessaprogramme.org/pdf/d50716.pdf. *This is a desktop research report on access to online resources by teachers in Africa focusing on Nigeria, Kenya, South Africa and Tanzania.*
50. James, Tina, et al. May 2002. "Final Evaluation of Computers in Education Trust Swaziland". South Africa: DfID. <http://imfundo.digitalbrain.com/imfundo/web/plan/documents/cet/Final%20CET%20Report%2016%20May%202002.doc?verb=view>. *An evaluation report produced by DfID on*

the schoolNet organization in Swaziland. Useful again for the constraints experienced ... as well as what works.

51. James, Tina, ed. 2004. "ICT for Development in Africa: Volume 3. Networking Institutions of Learning – SchoolNet". http://www.idrc.ca/en/ev-33006-201-1-DO_TOPIC.html. *This IDRC publication is an evaluation of schoolnet organisations in nine African countries. The analysis of constraints faced within each country is useful although it may be a bit dated.*
52. "SchoolNet Nigeria". www.schoolnetng.net. *This revamped website lists more up-to-date projects and programs spearheaded by SchoolNet Nigeria and partner organizations in the schools sector.*
53. "Audit of Selected Educational ICT Projects in South Africa". August 2002. <https://s3.amazonaws.com/baserc/379740/610730/wef-ict-audit-final.doc?AWSAccessKeyId=0XD517D5GNE3CR95BQ02&Expires=1166225712&Signature=dYH5Fok%2BbN%2B7tDnSSc0bt0FY318%3D>. *A bit dated, but still a very useful overview of key ICT4E projects in the schools sector in South Africa.*
54. "eSchools programme and ICT integration in Tanzania's secondary education policy Education". IICD. <http://www.iicd.org/search?SearchableText=education+policy+tanzania>. *Teachers colleges and some secondary schools will be equipped with computers and internet connectivity to enable teachers to use and teach ICTs.*
55. "Namibian schools switch on to information technology". OSISA. <http://www.osisa.org/node/1748>. *NAMIBIA intends to train 12,000 teachers in basic computer literacy and have 350,000 learners using computers for half an hour a week by 2010.*
56. Ankunda, Brenda. July 3, 2006. "US \$250,000 Regional Schools Computer Project Launched". Kampala: Uganda: East Africa Business Week. http://www.busiweek.com/index.php?option=com_content&task=view&id=1823&Itemid=39. *Over a three year period Barclays Bank will invest US\$250,000 in a computer project with Digital Links International to benefit East African students.*
57. http://www.learns.org/globe/globe_Africa.html. *This website has overviews of iEARN projects in 29 African countries.*
58. "CurriculumNet Pilot Project: Integration of Educational Technology into the Curriculum for Primary and Secondary Schools in Uganda (Acacia II)". IDRC. www.idrc.ca/en/ev-8040-201-1-DO_TOPIC.html. *A project in Uganda which specialises in the development of digitised curriculum-aligned content.*

Non Formal Education

1. Akinsola, Olabode S., Marlien E. Herselman and S. J. Jacobs. 2005. "ICT provision to disadvantaged urban communities: A study in South Africa and Nigeria". *International Journal of Education and Development using ICT*. 1 (3).
<http://ijedict.dec.uwi.edu/viewarticle.php?id=57&layout=html>. *The focus of this research was to develop a sustainable Information and Communication Technology (ICT) model in a Nigerian community.*
2. Wagner, D., Bob Day and J. S. Sun. March 30, 2004. "Information Technologies and Education for the Poor in Africa (ITEPA)". Final Report for Imfundo: Partnership for IT in Education. <http://imfundo.digitalbrain.com/imfundo/web/papers/itepa/ITEPA.doc>. *Report contains recommendations for a Pro-Poor ICT4D Non-Formal Education Policy.*
3. "The First Scale-up CMC Gets off the Ground in Mozambique". 2005. UNESCO Communication and Information Bulletin. http://portal.unesco.org/ci/en/ev.php-URL_ID=19082&URL_DO=DO_TOPIC&URL_SECTION=201.html. *The first Community Multimedia Centre with radio and ICTs in Mozambique, opened as part of UNESCO's multi-country scale up initiative, was inaugurated on May 9, 2005.*
4. "Ethiopian Centre Promoting ICT Use by Blind People Supported by UNESCO". January 2003. UNESCO Communication and Information Bulletin.
http://www.digitalopportunity.org/external/?url=http%3A%2F%2Fportal.unesco.org%2Fci%2Fev.php%3FURL_ID%3D6926%26URL_DO%3DDO_TOPIC%26URL_SECTION%3D201%26reload%3D1041834627. *A programme in Ethiopia to support training for the blind and visually impaired using ICTs.*
5. "IICD supported project: Kalomo Bwacha Women's ICT Club". April 2006. International Institute for Communication and Development.
<http://www.iicd.org/projects/articles/iicdprojects.2006-04-25.0903449865>. *Women in a rural area of Zambia are using ICTs in a women's resource centre to improve money making activities by using the Internet to market their produce.*
6. Laureys, Francois. November 2006. "ICTs and Rural Development: a case from Burkina Faso". International Institute for Communication and Development.
<http://www.iicd.org/articles/iicdnews.2006-11-06.1897137599>. *This article describes three of the five IICD supported projects in Burkina Faso focusing on rural development using ICTs.*
7. "Egypt Smart Schools". 2006. International Education Systems.
<http://ies.edc.org/ourwork/project.php?id=3600&topic=13>. *An EDC pilot project to build the capacity of teachers to integrate ICTs into teaching and learning, and, to strengthen the capacity of local non-governmental organization (NGO) members to assist schools and communities to manage school-based Community Learning Centers for community development.*
8. "dot-EDU Southern Sudan Interactive Radio Instruction (SSIRI) Program". International Education Systems. Project duration: 2004-2008.
<http://ies.edc.org/ourwork/project.php?id=3487&topic=13>. *The SSIRI program designs,*

develops, and pilot-tests appropriate and cost-effective technologies in an effort to provide learning opportunities for children, adults and teachers in southern Sudan.

9. "Nigerian Government kick starts Computer for All Nigerians Initiative (CANi)". June 10, 2006. Highway Africa News. <http://hana.ru.ac.za/article.cfm?articleID=1180>. *The Nigerian Federal Government has placed an order for the supply of 14,500 units of personal computers under the CANi initiative.*
10. "Africa Online's InfiNet Will Boost Basic Education". September 8, 2006. Ministry of Communications, Republic of Ghana. <http://www.moc.gov.gh/modules.php?op=modload&name=News&file=article&sid=159&mode=thread&order=0&thold=0>. *InfiNet, Africa Online's new mobile broad band wireless service, has strong potential for applications in basic education in rural schools.*
11. Virtual Souk: E-Commerce for unprivileged artisans". March 25, 2002. iConnect Online. <http://www.iconnect-online.org/Stories/Story.import5014/view?searchterm=virtual%20souk>. *The Virtual Souk is a World Bank supported project that helps craftsmen from the Middle East and North Africa to become economically competitive. The project trains the craftsmen in small business administration techniques and use of the Internet in Tunisia, Lebanon and Morocco.*
12. Wambui, Mercy. "Development Through Radio: A Case Study from Sierra Leone". 2005. The Communication Initiative. <http://www.comminit.com/ict/ictcasestudies/ictcasestudies-17.html>. *The Forum of Conscience (FOC), a human rights non-governmental organization, set out to establish a Development Through Radio(DTR) project in Sierra Leone that would provide a channel through which women could voice their views on the Truth and Reconciliation Commission process and bring gender issues to the fore in the process.*
13. "Evaluation Report on UNESCO's Community Multimedia Centre Initiative(CMC)". May 22, 2006. Internal Oversight Service, Evaluation Section: UNESCO. http://portal.unesco.org/ci/en/files/22129/11477736959CMC_Evaluation_Final.pdf/CMC%2BEvaluation_Final.pdf. *An assessment of UNESCO's CMC initiative which promotes sustainable local development through community-based facilities that combine traditional media like radio, television and print with new information communication technologies such as computers, the Internet, and mobile devices.*
14. Pigato, Miria. 2001. "Information and Communication Technology, Poverty, and Development in sub-Saharan Africa and South Asia". World Bank. http://www-wds.worldbank.org/servlet/WDSContentServer/WDSP/IB/2001/09/28/000094946_01091404003925/Rendered/PDF/multi0page.pdf. *Examines patterns of utilization, ownership and affordability of Information and Communication Technologies.*
15. "The ICT Programme". 2006. Mauritius National Computer Board. http://www.gov.mu/portal/site/ncbnew?content_id=04c5542c04f7d010VgnVCM1000000a04a8c0RCRD. *Across the country a programme to train 400,000 Mauritians in ICT over the next four years began on September 4 in the IT labs of 60 secondary schools.*

16. "Using Information and Communication Technology to Combat HIV/AIDS – Uganda". March 24, 2004. The Communication Initiative. <http://www.comminit.com/experiences/pds32004/experiences-1900.html>. *Implemented by the USA-based Education Development Center (EDC) and partners, this project uses peer learning, social action, and small business projects that integrate ICTs with information about HIV/AIDS to enable youth to build IT skills. A broader goal is to test the potential of ICTs as a means of facilitating youth and community learning about HIV/AIDS.*
17. "Computerize Nigeria Project". October 2006. This Day. <http://www.independentngonline.com/news/51/ARTICLE/13160/2006-10-16.html>. *The Computerize Nigeria Project, a NGO, has concluded plans to invest over N400 million in two mega computer training schools as a first phase in the planned roll-out of mega computer schools across the country. One, to open in January 2007, will be an IT training school and the other, when operational, will train civil servants, teachers, lecturers and unemployed graduates.*
18. Parkinson, Sarah. 2005. "Telecentres, Access and Development: Experience and Lessons from Uganda and South Africa". IRDC Books free online: ITDG Publishing/Fountain/IRDC. *This book analyzes the experience of South Africa and Uganda in their quest to provide universal ICT access, with particular emphasis on the role of shared access centres (public telephones, cybercafes, telecentres, business centres, etc.) and the factors that affect their performance.*
19. "Media for Sustainable Development". May, 2004. South Africa: Media for Sustainable Development. *This report makes specific recommendations on how community radio stations in Africa can improve on sustainable programming.*
20. Dymond, Andrew and Sonja Oestmann. December 2004. "A Rural ICT Toolkit for Africa". African Connection: Centre for Strategic Planning. The World Bank. <http://www.infodev.org/en/Publication.23.html>. *The tool kit provides a platform for actors in rural ICT development by giving detailed guidelines for preparing, documenting, measuring the impact of, and justifying the financial start up support for ICT projects in rural areas.*
21. "Nigeria gets \$200m to boost ICT in rural areas". October 27, 2006. The Tide Online. [http://www.thetidenews.com/article.aspx?qrDate=09/23/2006&qrTitle=Nigeria%20gets%20\\$200m%20to%20boost%20ICT%20in%20rural%20areas&qrColumn=NEWS](http://www.thetidenews.com/article.aspx?qrDate=09/23/2006&qrTitle=Nigeria%20gets%20$200m%20to%20boost%20ICT%20in%20rural%20areas&qrColumn=NEWS). *The loan will be used to deploy the National Technology Development Agency's Mobile Internet Units in rural areas as part of the effort to stimulate interest in ICT in the country.*
22. "Improving Basic Education, Especially for Girls in Targeted Areas – dot-EDU". Project duration: October 2004 – October 2005. Academy for Educational Development. http://www.aed.org/Projects/dotEDU_DRCongo.cfm. *This project, in remote areas of the Democratic Republic of Congo, is training local educators in the development of technology-enhanced curriculum to improve basic education, improve teacher skills and increase community participation.*

23. Okello, Dorothy. October 2002. "Women of Uganda Network". ICT Update. <http://ictupdate.cta.int/index.php/article/articleview/28/1/8/>.
The Women of Uganda Network (WOUGNET) is a non-governmental organization established in May 2000 that promotes the use of ICTs by women to enhance, share and exchange information.
24. Sibanda, Jennifer. October 2002. "Development through Radio". ICT Update. <http://ictupdate.cta.int/index.php/article/articleview/29/1/8/>. In Zimbabwe, DTR is a rural project where groups of women are trained to produce radio programmes.
25. "One Village Foundation".
http://www.onevillagefoundation.org/ovf/ovf_ghana_index.html. *This website provides goals, strategies and projects of the Foundation headquartered in California and operating in Ghana, Nigeria and Kenya.*
26. "The Bridges to the Future Initiative".
www.literacyonline.org/bfi_ili/countries_ghana.html. *In community learning and technology centres. BFI-Ghana seeks to improve the basic skills, literacy and entry level vocational skills of out-of-school youth and young adults in poor communities. ICT tools are used to improve the training of teachers.*
27. Alpha, Morie, "Bridging the Digital Divide in Sierra Leone". January 3, 2004. www.wcsd.org/ejournal/article.php3?id_article=77. *The local chapter of the International Education And Resource Network (iEARN) is helping young people collaborate with other young people from different parts of the world on projects which involve peer group education through the use of ICTs.*
28. Rowe, Mark. "E for education". DFID. <http://www.developments.org.uk/data/Issue22/e-for-education.htm-top>. *Nairobi, an NGO run by local staff and supported by Dutch and Irish computer experts, has developed a free e-learning programme in computer skills for youths living in the slum areas of Nairobi.*
29. Nakaseke Telecentre (Uganda)". October 2002.
<http://ictupdate.cta.int/index.php/article/archive/14>. *The centre has produced a CD-ROM, Rural Women in Africa: Ideas for Earning Money, in Luganda and English, with graphics and audio interfaces to facilitate its use by illiterate women.*
30. "Electronic Learning Network (ELN)".
<http://ictupdate.cta.int/index.php/article/archive/14>.
The Electronic Learning Network (ELN) brings together women professionals, male colleagues and women farmers in Africa who learn how to use ICTs for food security and environmental sustainability.
31. Bobbili, Raja and Marta Luczynska. "Radio Farm Forum and Afronet: Learning from Successful ICT Projects in Zambia".
<http://www.google.com/search?sourceid=navclient&ie=UTF-8&rls=RNWI,RNWI:2006-01,RNWI:en&q=%e2%80%9cRadio+Farm+Forum+and+Afronet>. *This paper analyzes the successes of the Radio Farm Forum and Afronet, two organizations using ICTs successfully.*

32. Pye, David, Joan Stephenson, Susan Harris, Barbara Lee and Marilyn Leask. 2003. "Using ICT to increase the effectiveness of community-based non-formal education for rural people in Sub-Saharan Africa: the CERP Project". London: Department for International Development. <http://www.nfer.ac.uk/research-areas/pims-data/summaries/using-ict-to-increase-the-effectiveness-of-community-based-non-formal-education-for-rural-people-in-sub-saharan-africa-the-cerp-project.cfm>. *This project sought to test out and extend the use of ICT in non-formal education in learning centers in Zambia.*
33. "Imfundo research programme in Ethiopia." DFID. <http://www.dfid.gov.uk/research/imfundo-ethiopia.asp>. *Imfundo is working with the Forum for Street Children in Nazareth to implement IFORUM that looks at how ICTs can best be used to enhance the learning experiences of street children. The main purpose of the project is to develop replicable ICT based materials and methods for supporting out of school children's learning and then to disseminate them throughout the country.*
34. "Genre, agriculture, développement rural et société de l'information". GenARDIS. <http://www.apcwomen.org/genardis/>. *The GenARDIS Small Grants Fund supports work on gender-related issues in ICTs for African, Caribbean and Pacific (ACP) agricultural and rural development. 2005 Winners of GenARDIS awards included projects in seven African countries.*
35. "Gender, ICT and...ostrich eggs? GRACE, an African ICT Research Network". June 2006. Gender Research in Africa into ICTs for Empowerment (GRACE). <http://grace.gn.apc.org/>. *GRACE has 14 research sites in 12 countries exploring the ways in which African women use ICTs to empower themselves.*
36. "Timebound Program on Eliminating Child Labor in Tanzania". 2002-2006. International Education Systems (IES). <http://ies.edc.org/ourwork/project.php?id=3224&topic=13>. *A report of an interactive radio instruction series called Mambo Elimu that reached approximately 10,000 children in Tanzania who had no access to formal education. A similar project has been conducted in Somalia.*
37. "Chezasalama". www.chezasalama.com, This Web site is a user-friendly information portal, in several languages, on reproductive health which was developed within the health sector reform programme in Tanzania.
38. "Resources about Women & Gender". Women of Uganda (Wougnet). <http://www.wougnet.org/Links/aboutwomen.html>. *A women-led monthly web-based newspaper that is distributed via the Internet and community radio networks to by-pass the challenges of literacy and distribution.*
39. "Increasing rural entrepreneurs women income – the case of Buwuma Multimedia Centre". APC WNSP News. Entebbe: Uganda. <http://www.apcwomen.org/news/index.shtml?x=94770>. *This centre serves women, rural poor, farmers and business people using ICTs for training in Enterprise development, entrepreneurship, business management and specialized agricultural skills.*

40. "Fantsuam Foundation, (Nigeria)". October 30, 2002. ICT Update. Issue 8. <http://ictupdate.cta.int/index.php/article/archive/14>. *The Foundation has adopted an innovative approach to improving healthcare and education, primarily for women, through shared access to ICT facilities. It offers ICT training at community learning centres and operates a solar-powered rural telecentre in southern Kaduna.*
41. "Networking for Change and Empowerment". http://www.apcwomen.org/eng_index.shtml. *This is the web site of The Women's Networking Support Programme (WNSP), a global network of women who support women networking for social change and women's empowerment, through the use of ICTs.*
42. "Development of Non-formal Education through Information and Communication Technologies (ICTs)". UNESCO. Project duration: January 2002-December 2004. http://portal.unesco.org/education/en/ev.php-URL_ID=41550&URL_DO=DO_TOPIC&URL_SECTION=201.html. *A pilot training programme, operating in Namibia, Burkino Faso, Mali and Uganda, on the use of ICTs for personnel involved in literacy and non-formal education.*
43. "ICT-mediated livelihood training of women in vegetable production in the western rural area of Sierra Leone". GenARDIS. http://www.apcwomen.org/genardis/genardis_project.shtml?cmd%5B734%5D=i-734-a71153fcf90743cf2fa4d15f19653ce1. *The project prepares extension agents to train women in using ICTs for developing their functional literacy skills in crain-crain and okra production.*
44. Mwewa, Bornwell. August 2005. "Taking Mobile Phones to Women in Chipata". One World. <http://www.digitalopportunity.org/article/view/116942/1/>. *OneWorld Africa and the Chipata District Women's Development Association have designed a project to setup an information communication network within the Chipata district in Zambia which will disseminate information on improving livelihoods to 12 communities.*
45. "IICD supported project: Chawama Youth Project". December 2006. iicd. <http://www.iicd.org/projects/articles/zm-chawama>. *In the Chawama Township of Lusaka the Skills Training Centre, providing life skills training to unemployed and poor youth, has recently added an ICT centre. It is serving not only the youth, but people in the community.*
46. "PACEEQ (Community Participation for Equitable and Quality Basic Education)". Project duration: 2001-2006. International Education Systems. <http://ies.edc.org/ourwork/project.php?id=3743&topic=13>. *In Guinea, the first phase of PACEEQ involed rural radio stations producing programming to train Parent Associations (PAs) and raise awareness of community participation in schooling. Currently, IES is working with regional and national PA coordinating committees to develop communication strategies to promote school-community collaboration and to mobilize local action around school reform, girls' education, and HIV/AIDS.*
47. "ICT Knowledge Bowl For Kids". 2003. Gender and ICT Awards. http://www.genderawards.net/gict_pr_db.shtml?AA_SL_Session=bd4c3ca897fb8&x=189

04. *Gambia YMCAs and World Links developed a project for students in 19 rural or urban schools to share ICT information and learn from each other.*

http://www.adeanet.org/newsletter/Vol16No3/V16N3_eng_web.pdf. *Report on the conference organized by ADEA.*
4. "Mozambique Government endorses the CMC model in new Science and Technology Strategy". September 2006. Communication and Information Daily News Service, UNESCO. http://portal.unesco.org/ci/en/ev.php-URL_ID=22737&URL_DO=DO_TOPIC&URL_SECTION=201.html. *The Mozambican government has decided to expand the community multimedia centers (CMC) as a means of facilitating the general public's access to the new technologies.*
5. "Protocol of Agreement Between Peace Corps/The Gambia and World Links". April 27, 2003. Peace Corps Online.
<http://peacecorpsonline.org/messages/messages/467/2013371.html>. *A protocol agreement*

to pool the resources of World Links and Peace Corps/The Gambia to maximize synergies for educational technology.

6. “TUNISIA: New Information and Communication Technologies”. Material received from the Embassy of Tunisia in New Delhi, India. www.namstct.org/tunisiait.htm. *The Internet connections of all universities and research centres as well as high schools were finalized in 2001.*
7. “National Initiatives Concerning the ICT and Education/Training – Ghana”. December 2000. Accra, Ghana: International Labour Office. www.logos-net.net/ilo/150_base/en/topic_n/t8_gha.htm. *The Plan for the National Information and Communications Infrastructure of Ghana 2000-2005.*
8. “Gov’t Unfolds Strategies to Roll Out ICTS in Educational Institutions”. September 2006. allAfrica News. <http://allafrica.com/stories/200609210640.html>. *A description of the deployment of requisite tools and strategies to achieve the broad goal of every learner in Ghana to be able to use ICTS confidently by 2015.*
9. Philander, F. “Gov’t Now Budgets for ICT”. September 15, 2006. Windhoek: New Era. <http://www.newera.com.na/archives.php?id=13161&date=2006-09-15>. *For the first time the government of Namibia has included ICTs as a line item in the Education budget.*
10. “World Bank Gives US\$10m for ICT”. September 13, 2006. all Africa News. <http://allafrica.com/stories/200609130661.html>. *The grant will help Rwanda establish and equip ministries and district offices with a standard suite of ICT infrastructure enabling them to improve access to information about basic services including education.*
11. “The Level of Penetration and Use of the Information and Communication Technologies in Cameroon”. 2006. The Ministry of Posts and Telecommunications. http://www.minpostel.gov.cm/scan-ict2006/template/Final_SCAN_ICT_Report_english_Modified_Oct_11_06.doc#_Toc147548908. *An overview of the ICT environment in Cameroon, current projects in the education sector and development of ICT skills for women.*
12. Hamilton, Paul, Mike Jensen and Russell Southwood. 2006. “African Internet Country Market Profiles”. Balancing Act News Update. <http://www.balancingact-africa.com/profile1.html>. *An overview of developments in West Africa that summarizes the data found in the 22 country profiles, identifying growth opportunities and relevant industry issues.*
13. Gillwald, Alison, ed. 2005. “Towards an African e-Index: Household and individual ICT Access and Usage Across 10 African Countries”. The LINK Centre, Wits University School of Public and Development Management. <http://www.researchictafrica.net/images/upload/Toward2.pdf>

Distance Education/Open Learning

1. Rumajogee, Anand Ramsamy. February 2002. "Distance Education and Open Learning in sub-Saharan Africa: A Literature Survey on Policy and Practice". Working Group on Distance Education and Open Learning, Association for the Development of Education in Africa. <http://www.adeanet.org/publications/docs/open%20learning%201.pdf>. *This report is a review of the literature on current developments and prospects in the field of open and distance learning in Sub-Saharan Africa.*
2. Butcher, Neil. December 2003. "Technological Infrastructure and use of ICT in Education in Africa: An overview". ADEA Working Group on Distance Education and Open Learning. http://www.adeanet.org/publications/docs/ICT_eng.pdf. *This book examines existing technological infrastructure and use of information and communication technologies in education and explores how ICT can support distance education and open learning in Africa.*
3. "South West : UB Armed for Distance Learning". November 2006. Cameroon Tribune. <http://www.cameroon-tribune.net/article.php?lang=Fr&oled=j15092006&idart=38888&olarch=#>. *The University of Buea has announced its readiness to make distance learning more realistic in the next academic year.*
4. "Distance Education, Information and Communication Technologies (ICTs)– Policy Challenges". March 27-31, 2006. Association for the Development of Education in Africa, Biennale on Education in Africa held in Libreville, Gabon. http://www.adeanet.org/biennial-2006/D.%20Doc%20Pl%E9ni%E8res/PL5_2_GTEDAL_en.pdf#search=%22%22Southern%20African%20Regional%20Distance%20Education%20Centre%22. *Provides an insight into the status of technological infrastructure in sub-Saharan Africa needed to support DE interventions.*
5. "Toolkit Preview: Designing Open and Distance Learning for Teacher Education in Sub-Saharan Africa: A Toolkit for Educators and Planners". March 2006. <http://web.worldbank.org/WBSITE/EXTERNAL/COUNTRIES/AFRICAEXT/EXTAFRREGTOPEducation/EXTAFRREGTOPDISEDU/0,,contentMDK:20821714~pagePK:34004173~piPK:34003707~theSitePK:732264,00.html>. *The toolkit focuses on the development of open and distance learning and teacher education programmes.*
6. "Developing effective ICT-supported distance education delivery models and methodologies". Project duration: September 2004 - December 2005. UNESCO. http://portal.unesco.org/education/en/ev.php-URL_ID=42892&URL_DO=DO_TOPIC&URL_SECTION=201.html. *The project's purpose was to develop e-learning materials to improve distance education for Namibian secondary schools.*
7. "University of Swaziland Institute of Distance Education". <http://www.uniswa.sz/academics/ide/>. *The website has a summary of programmes offered.*
8. Allais, S.M. 2003. "Distance Education in Francophone African Countries: report of a research visit". *Open Learning through Distance Education.* 9 (2): 10-13.

- <http://www.saide.org.za/resources/0000000051/2003.pdf>. *Report of the research findings of a short visit to three Francophone African countries. The aim was to gather information on distance education projects to contribute to an international 'knowledge base' on distance education and open learning in Higher Education, and to promote relations and exchange of good practice between African Anglophone and Francophone practitioners.*
9. "Teacher Education Through Distance Learning". October 2001. UNESCO. http://portal.unesco.org/education/en/ev.php-URL_ID=45578&URL_DO=DO_TOPIC&URL_SECTION=201.html. *This document is a summary of case studies that include one in each of Burkino Faso and Nigeria and two in South Africa.*
 10. "UNESCO to Sponsor Pilot Satellite Distance Learning Course on Telecentres in Africa". May 2004. UNESCO Daily News Service. http://portal.unesco.org/ci/en/ev.php-URL_ID=13920&URL_DO=DO_TOPIC&URL_SECTION=201.html. *This project demonstrated and tested the potential of digital radio to deliver low budget, effective, multimedia based and real time distance education to rural learners in Ethiopia, Namibia, Tanzania, Uganda and Zambia.*
 11. "Education – Under Construction". November 2003. UNESCO. <http://portal.unesco.org/education/en/ev.php-> *There is a growing commitment by African governments to development of ICTs and use of these technologies for Distance Education. Additionally, there are strong indicators that open and distance learning is becoming more central to the education policy of many countries.*
 12. Martey, A. 2004. "ICT in Distance Education in Ghana". Library Hi Tech News incorporating Online and CD Notes. 21(5):16-18(3). Emerald Group Publishing Ltd. <http://www.ingentaconnect.com/content/mcb/239/2004/00000021/00000005/art00006>. *This study describes the ICT scene in Ghana from 1996 to 2004. The emphasis is on the benefits that distance learners in Ghana will derive from an ICT-enhanced distance education.*
 13. Perraton, Hillary. October 2001. "Teacher Education Through Distance Learning". UNESCO. http://portal.unesco.org/education/en/ev.php-URL_ID=45578&URL_DO=DO_TOPIC&URL_SECTION=201.html. *A summary of case studies in Burkino Faso, Nigeria, and South Africa to ascertain what distance education methods were being used and how effective they were.*
 14. "E-Learning: Promoting Distance Education at the Secondary Level". September 6, 2005. Windhoek, Namibia: UNESCO. http://portal.unesco.org/es/ev.php-URL_ID=28751&URL_DO=DO_TOPIC&URL_SECTION=.html. *A pilot project to develop effective ICT supported distance education delivery models and methodologies for secondary schools in Namibia. This collaborative venture between UNESCO and the Namibian College for Open Learning was initiated in January 2005.*
 15. Schroeder, Ray, ed. August 27, 2005. "Online Learning Update". http://people.uis.edu/rschr1/onlinelearning/archive/2005_08_21_archive.html. The

Nigerian Open University is providing open and distance learning courses in study centres equipped by the fire service, police and Nigerian Prison Service.

Gender & ICT

1. Derbyshire, Helen. January 2003. "Gender Issues in the use of Computers in Education in Africa". Imfundo.
<http://imfundo.digitalbrain.com/imfundo/web/learn/documents/Gender%20Report.doc>.
The paper draws on research from other jurisdictions because of the lack of African based research.
2. Isaacs, Shafika. November 2002. Seoul, Republic of Korea. "It's Hot for Girls". Paper presented at 'Expert Group Meeting on Information and Communication Technologies and their impact on and use as an instrument for the advancement and empowerment of women'.
<http://www.un.org/womenwatch/daw/egm/ict2002/reports/Paper%20by%20Isaaks2.PDF>.
The paper analyses gender and ICT in education.
3. "Women in Global Science and Technology (WIGSAT)".
<http://www.wigsat.org/WST.html>. *This site contains several references relating to women, science, technology and ICT in development.*
4. Buskens, Ineke. June 6, 2006. "GRACE Project : State of the Research". Durban, South Africa: Association for Progressive Communications.
<http://www.apc.org/english/news/index.shtml?x=5038333>. *The GRACE (Gender Research in Africa into ICTs for Empowerment) project is focused on researching how women in 12 African countries use information and communication technologies for empowerment.*
5. Radloff, Jennifer, Natasha Primo and Alice Munyua. August 2004. "The Role of Information and Communication Technologies in the Development of African Women". The Association for Progressive Communications.
http://www.apc.org/english/rights/documents/article_english.pdf. *This paper examines the role of information and communication technologies in relation to women's development in Africa. The paper outlines the issues and challenges faced by African women entering the Information society.*
6. "Open Learning Communities for Gender Equity with the Support of ICTs". November 2003. UNESCO, Open Learning Communities. http://portal.unesco.org/ci/en/ev.php-URL_ID=2175&URL_DO=DO_TOPIC&URL_SECTION=201.html. *Local communities in Mozambique and South Africa use ICTs in local telecenters to develop their own content and learning tools which transforms the centres into places of equity-based learning and community building.*

7. “GenderIT.org : Changing the way you see ICT”. Association for Progressive Communications. <http://www.genderit.org/en/index.shtml>. *A clearing house on gender and ICT policy issues.*
