Minister of Education, Sri Lanka

### Convocation Address

Professor Asha Kanwar, President & Chief Executive Officer, Commonwealth of Learning

### Video Testimonials from Learners

### Vote of Thanks

Dr Basheerhamad Shadrach, Adviser: Skills, Commonwealth of Learning

# About the Programme

Recognising the catastrophic effects of COVID-19 on millions of people who have become unemployed, or are on the verge of losing their jobs, Coursera, one of the world's leading eLearning providers, announced the Coursera Workforce Recovery Initiative in April 2020 as an immediate solution to these challenges.

As an intergovernmental organisation committed to improving livelihood conditions of people across the Commonwealth, the Commonwealth of Learning (COL) entered into this partnership in May 2020 to make a difference to the lives of thousands of people whose immediate need was to acquire skills for regaining employment.

## Graduates

COL's partnership with Coursera facilitated free access to over 5,000 courses designed to skill and re-skill citizens of Commonwealth Member States for livelihoods. These courses, aligned to employability, were taught by Professors from highly reputable Universities and organisations.

COL has admitted close to 150,000 citizens of the Commonwealth to gain skills to regain employment, with more than 42,000 of them graduating.

Recognising the success of these learners four regional virtual Convocations have been held. Over 12,000 learners from Africa, 10,000 from Asia, 18,000 from the Caribbean and 150 from the Pacific have graduated through the COL-Coursera Workforce Recovery Initiative.

# Commonwealth of Learning

Created by Commonwealth Heads of Government in 1987, the Commonwealth of Learning (COL) helps Member States and institutions harness the potential of distance learning and technologies to expand access to education and training and address the education challenges of today. For COL, learning is the key to sustainable development and must lead to opportunities for economic growth, social inclusion and environmental conservation.

## **coursera**

Coursera partners with more than 200 leading universities and companies to bring flexible, affordable, job-relevant online learning to individuals and organizations worldwide. We offer a range of learning opportunities—from hands-on projects and courses to job-ready certificates and degree programs.
