# Gender Equality and Women's Empowerment

8-WEEK ONLINE COURSE

Starting March 25, 2024

## About this course:

Gender equality and women's empowerment can unlock human potential on a transformational scale. For societies to thrive, women and girls, men and boys must have equal access to education, healthcare, and technology. They must have equal control of resources, lands, and markets. And they must have equal rights and opportunities.

This course is offered by the Commonwealth of Learning to respond to the increasing need for competencies of government officials, policymakers, organizational staff and individuals to effect personal and collective transformation in promoting gender equality. Using up to date content and thought provoking case studies, you will learn how various frameworks and tools can be used to integrate a human rights perspective into the workplace and the community for gender equality and women's empowerment.

## Is this course for you?

Do you find that your work increasingly requires that you apply a gender perspective to your work? Are you passionate about creating a more gender equitable world where the voices of women and men, girls and boys have a role in shaping our future? Then this course is for you.
